TERMS OF SERVICE (2026:1)

TRADEREGISTER.FI WEBSITE

Updated: October 2026

1 GENERAL

1.1 General Terms. These terms of service (the **"Terms"**) apply to the delivery of the Service to User and User's use thereof. By accessing or using the Service, User confirms that it has read, understood and agrees to be bound by the Terms, which constitute a binding and enforceable contract between User and Coragrid. In the event of any conflict or inconsistency between any terms and conditions of the Agreement, the following order of precedence applies: (i) these Terms; and (ii) supplementary documents included or referenced in these Terms.

1.2 Modifications. Coragrid reserves the right, in its discretion, to amend, modify or alter these Terms at any time. The current version is published at traderegister.fi/terms-of-service, where User will be notified of any material amendment. By continuing to use the Service, User agrees to the changes.

2 DEFINITIONS

2.1 In this document, unless the context otherwise requires:

"Agreement" means these Terms, the Privacy Notice and any supplementary documents referred to in such documents;
"AI Assistant" means an artificial intelligence assistant, agent or similar automated client that accesses the Service or the Records on behalf of a specific person, including through MCP;
"API Terms" means Coragrid's API terms that govern the free JSON API and the MCP server, available at traderegister.fi/terms-of-service, as updated or amended from time to time;
"Coragrid" means Upperformance Oy, a Finnish limited liability company, Business ID 3282334-3, with address Lapinlahdenkatu 16, 00180 Helsinki, Finland;
"Coragrid API" means Coragrid's public company data API documented at coragrid.com, from which the Service retrieves every Record live;
"Data Protection Laws" means all applicable laws, rules and regulations that apply to or govern the processing of personal data from time to time, including the General Data Protection Regulation (EU) 2016/679 of the European Parliament and of the Council (**"GDPR"**);
"Documentation" means the pages of the Service that describe it, including the About page and the API documentation page at traderegister.fi/api, together with the Markdown versions of the pages, the agent files and llms.txt published for automated clients, as updated or amended from time to time;
"Effective Date" means the day User first accesses the Service;
"Feedback" means comments, suggestions, improvements, ideas or other feedback, whether written or oral;
"Input" means a search query or any other information or data submitted to the Service by User;
"Intellectual Property Rights" means all copyright and related rights, design rights, registered designs, patents, trade and service marks, database rights, know-how, trade secrets, rights in confidential information and all other intellectual property rights, whether registered or unregistered, throughout the world for the full term of the rights concerned;
"MCP" means model context protocol, being an open standard that enables AI systems to securely connect to external data sources, tools and systems;
"Privacy Notice" means TradeRegister.fi's general privacy notice, available at https://traderegister.fi/privacy-policy, as updated or amended from time to time;
"Records" means any data, output or document made available through or in connection with the Service, such as search results, company profiles and current officers as official company registers publish them, with their sources and observation times, including the Documentation, but excluding Input;
"Service" means TradeRegister.fi, Coragrid's company lookup website at traderegister.fi, which searches official company registers and shows company records as the registers publish them, including the support chat where shown; the free JSON API and the MCP server are governed by the API Terms; and
"User" means the person or entity that accesses or uses the Service and, where a person acts on behalf of an organisation, that organisation, which the person represents that they have the authority to bind.

3 SERVICE DELIVERY

3.1 Service Provisioning. Subject to User's compliance with the Agreement, Coragrid will make the Service available to User free of charge, without an account, a key or an order form, for as long as the Service is

offered. Coragrid grants to User a limited, non-exclusive, non-transferable and non-sublicensable right to access and use the Service as permitted by the Agreement.

3.2 Use of Records. User may use the Records for its internal business operations and in its own products and services, in accordance with applicable law and the Agreement, provided that company data is shown as powered by Coragrid wherever User displays it. Records originate from official company registers and other public sector or third-party sources and remain subject to any source notices, attribution requirements and licence terms that apply to them.

3.3 What the Service is. The Service is an aggregation and search layer over official company registers, retrieved live from the Coragrid API. It is not a registry, not a registered agent, not a credit reference agency, and not a provider of legal, financial, tax or compliance advice.

3.4 Changes to the Service. The Service is provided as a free preview and may include test features. Coragrid may change, limit or discontinue any feature, or the Service as a whole, at any time; the Documentation describes the Service in force. User agrees that its use of the Service is not contingent on the delivery of future features or functionalities.

3.5 Third Party Services. The Service relies on third-party infrastructure and may link to official register websites and other resources not provided or controlled by Coragrid (**"Third Party Services"**). User's use of any Third Party Service is subject to that provider's terms, policies and usage restrictions, and User is responsible for complying with them. Coragrid makes no representation or warranty in respect of any Third Party Service and shall have no liability for the availability, accuracy, performance, acts or omissions of any Third Party Service or its provider.

3.6 Coragrid API keys. The Service needs no key and issues none. A Coragrid API key unlocks the full Coragrid API and the cgd command line; keys are issued by Coragrid on request and used under the Coragrid Terms of Service at coragrid.com/terms-of-service, not under the Agreement.

4 USAGE

4.1 Compliance. User will comply with these Terms, the Documentation and any other requirements or guidelines communicated by Coragrid from time to time, and is responsible for all activities in its use of the Service, including those of any AI Assistant acting for it. Coragrid may, without prejudice to any other remedies available to it, suspend or restrict User's access to the Service immediately, including by client address, if User is in breach of the Agreement or User's actions risk harm to the security, availability or integrity of the Service or the Records. Coragrid determines, at its reasonable discretion, what constitutes a violation; where the conduct is ambiguous and low-risk Coragrid will normally ask before acting.

4.2 Acceptable Use. User will not:

i) copy, modify, adapt, hack or otherwise attempt to discover any source code or modify the Service in any manner or form;
ii) use the Service in a manner or for any activity that is in violation of any laws or regulations, any rights of Coragrid or any third party, or is otherwise harmful, infringing, defamatory, obscene, offensive or fraudulent;
iii) rent, resell, distribute, assign, sublicense, time-share or similarly exploit the Service, or offer access to it to any third party;
iv) scrape, crawl, spider, harvest, mirror, bulk download, systematically cache, index or otherwise extract Records from the website's pages by automated means: automated access to company data goes through the API under the API Terms, and the Markdown versions of the pages, the agent files and llms.txt are published for automated clients to read;
v) use the Service or the Records to build, populate, enrich or maintain any database, archive, dataset or similar repository that competes with the Service or the Coragrid API, or redistribute the Records as a dataset, whether or not User stays inside the rate limits;
vi) use the Service or the Records to design, develop, train, fine-tune, evaluate or otherwise develop any artificial intelligence, machine learning or large language model without Coragrid's prior written consent, provided that retrieval by an AI Assistant on behalf of a specific person in accordance with Section 5 is permitted;
vii) circumvent the human verification, the rate limits or other capacity protections, including by rotating client addresses or user agents;
viii) present Records as official register extracts, or imply official status, endorsement or affiliation by any register or public authority;
ix) use the Service or the Records to harass or profile the individuals named in a Record, or otherwise in violation of Data Protection Laws;

x) use the support chat, where shown, for anything other than questions about the Service, or for bulk or automated messages; or

xi) take any action that risks harm to others or to the security, availability or integrity of the Service.

5 AI ASSISTANTS AND AUTOMATED CLIENTS

5.1 AI Assistants. Retrieval by an AI Assistant on behalf of a specific person is permitted, through the free JSON API, MCP or the agent files, and counts against that client's allowance. User is responsible for its use of any AI Assistant, for having all necessary rights, permissions and consents required for that use, and for what the AI Assistant does with the Records. User will not use an AI Assistant's output from the Records: (i) to mislead any person about its source; (ii) to make automated decisions that may have a detrimental effect on individual rights without appropriate human supervision; or (iii) in a manner that infringes, violates or misappropriates any rights of Coragrid or any third party.

5.2 Agent files. The Markdown versions of the pages, the agent files and llms.txt are Documentation published for automated clients to read. They grant no right to the Records beyond the Agreement and the API Terms.

6 FEES

6.1 Fees. The Service is provided free of charge. Coragrid may offer paid tiers in the future; no fees apply unless User separately agrees to them in writing.

7 TERM AND TERMINATION

7.1 Term. The Agreement commences on the Effective Date and remains in effect for as long as User uses the Service. User may stop using the Service at any time.

7.2 Termination. Coragrid may terminate User's access to the Service, or withdraw the Service, at any time. Where practicable Coragrid will give reasonable notice, except where immediate action is needed to protect the Service, the Records or other users.

7.3 Surviving Provisions. Provisions of the Agreement that by their nature should survive termination of the Agreement will survive, including intellectual property rights, limitations of liability, indemnity and applicable law.

8 INTELLECTUAL PROPERTY RIGHTS

8.1 Coragrid Intellectual Property Rights. Coragrid, or its affiliates or licensors, will remain the exclusive owners of all Intellectual Property Rights in and to the Service and the Records (including the Coragrid index and database the Service is built on and the underlying technology, software and content). Except for the limited rights expressly granted under the Agreement, Coragrid does not transfer any rights or interest in or to the Service or the Records.

8.2 Input and Output. As between User and Coragrid, User retains all rights to its Input and may use the Records the Service returns for it (**"Output"**) as the Agreement allows; Coragrid retains all rights to the underlying database and index used to generate the Output. Individual facts in the Records may be in the public domain; the structured compilation, its permanent identifiers and its provenance are protected by database rights and other Intellectual Property Rights.

8.3 Usage Data. Coragrid owns all data and information generated, collected or derived from the use of the Service (**"Usage Data"**). Coragrid may use Usage Data for any lawful business purpose, including to (i) deliver, operate, secure and support the Service, and (ii) develop and improve the Service, provided that any Usage Data disclosed to third parties must be in aggregated or anonymised form so that it cannot be attributed to User.

8.4 Feedback. If User provides any Feedback, User agrees that Coragrid and its affiliates may use the Feedback without restriction.

9 DATA PROTECTION AND PRIVACY

9.1 User Personal Data. Coragrid acts as the data controller for personal data processed to provide the Service, such as User's IP address and messages to Coragrid. That use is governed by the Privacy Notice, which also describes how User can exercise its rights under Data Protection Laws.

9.2 Personal Data in the Records. The Records include the names and roles of company officers as the registers publish them. Coragrid provides them as a data provider, an aggregation and search layer over official company registers, on the basis of its legitimate interest in facilitating B2B commerce and market transparency under Article 6(1)(f) of the GDPR, in line with the purpose for which the register published them. To the extent User processes such personal data, User and Coragrid are each a separate and independent controller of that personal data and will not process it as joint controllers: User determines its own purposes and legal

basis for any further processing and is individually and separately responsible for its own compliance with Data Protection Laws.

9.3 Corrections. If User believes a Record is wrong, User should tell Coragrid with the company's page address, the register and identifier, the disputed field and a link to the official source showing the expected value. Coragrid does not depart from what the register publishes: a correction made at the register is the durable fix, and it flows into the Service.

9.4 Sensitive or Special Data. User agrees that no Input, for example in the support chat, will include any personal information deemed "sensitive" or "special" under Data Protection Laws.

10 WARRANTIES AND REPRESENTATIONS

10.1 Malicious Code. Coragrid will make commercially reasonable efforts to keep the Service free of viruses, Trojan horses and comparable malicious code.

10.2 No Reliance, etc.. The Service and all Records do not constitute legal, financial, tax, credit or compliance advice. The Service shows what a register published, or an explicit statement that a value is unknown, restricted or no longer current. Coverage depends on the registers Coragrid has connected and qualified: a company missing from the Service is not evidence that it does not exist, a Record may lag the register, and a value shown as unknown means the register does not state it, not that it is zero or absent. User understands that Records may be incomplete, inaccurate or out of date, and agrees to independently verify any information that is material to a legal, financial, regulatory or compliance decision; the register of the company's home country remains the authoritative source for conclusive records, certificates and filings. Coragrid shall have no liability for any decision made, action taken or not taken, or loss incurred in reliance on the Service or any Record.

10.3 User Warranties and Representations. User warrants and represents that any Input: (a) is lawful; (b) is not shared contrary to applicable law, regulation or contract, including Data Protection Laws, or otherwise in violation of any third party right; and (c) may be lawfully used, processed and transferred by Coragrid and its third party service providers in accordance with the Agreement.

10.4 Warranty Disclaimer. EXCEPT AS EXPLICITLY PROVIDED IN THE AGREEMENT, TO THE FULLEST EXTENT POSSIBLE UNDER APPLICABLE LAW, THE SERVICE AND THE RECORDS ARE PROVIDED "AS IS" AND "AS AVAILABLE", AND CORAGRID DOES NOT GIVE ANY REPRESENTATIONS, WARRANTIES, TERMS, CONDITIONS OR STATEMENTS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE AS TO THE QUALITY, CONTENT, ACCURACY, COMPLETENESS, TIMELINESS, AVAILABILITY OR FITNESS FOR A SPECIFIC PURPOSE OF THE SERVICE OR THE RECORDS, OR THE NON-INFRINGEMENT OF ANY THIRD PARTY INTELLECTUAL PROPERTY RIGHTS, A WARRANTY OF MERCHANTABILITY, OR THAT OPERATION OF THE SERVICE WILL BE SECURE, UNINTERRUPTED OR FREE OF HARMFUL COMPONENTS. USER ASSUMES TOTAL RESPONSIBILITY FOR THE SELECTION OF THE SERVICE TO ACHIEVE ITS INTENDED RESULTS.

11 INDEMNIFICATION

11.1 Indemnification by User. User will defend Coragrid against any claim by a third party arising out of or relating to (i) User's breach of the Agreement, (ii) User's unauthorised use of the Service or the Records, or (iii) any product, service or work User builds with them, and will indemnify Coragrid against damages and reasonable costs finally awarded or agreed in settlement.

11.2 Procedure. Coragrid must promptly notify User in writing of any potential indemnification claim and give User sole control of defence and settlement, provided that User will not agree to a settlement imposing a non-financial obligation on or admission of guilt of Coragrid without Coragrid's prior written consent, and Coragrid will provide reasonable cooperation at User's expense.

12 LIABILITY LIMITATIONS

12.1 Liability Exclusions. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CORAGRID IS NOT LIABLE FOR ANY INDIRECT, CONSEQUENTIAL, PUNITIVE, INCIDENTAL OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS, REVENUE, DATA OR USE, INCURRED BY USER OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, ARISING FROM OR RELATED TO THE AGREEMENT, THE SERVICE OR ANY USE OF THE SERVICE OR THE RECORDS, EVEN IF CORAGRID HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

12.2 Limitation of Liability. IN ADDITION TO ANY OTHER LIMITATIONS OF LIABILITY UNDER THE AGREEMENT AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CORAGRID'S ENTIRE LIABILITY IN THE AGGREGATE FOR ALL CLAIMS RELATED TO THE AGREEMENT (REGARDLESS OF THE BASIS OF THE CLAIM) WILL NOT EXCEED ANY ACTUAL DIRECT DAMAGES INCURRED

BY USER UP TO THE TOTAL AMOUNT OF FEES PAID BY USER UNDER THE AGREEMENT IN THE TWELVE MONTHS PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE SERVICE IS FREE OF CHARGE, SO FOR A USER WHO HAS PAID NO FEES THAT AMOUNT IS ZERO.

12.3 Notification. User must notify Coragrid in writing of any claim under or arising out of the Agreement without undue delay and in any event within twelve months from the date on which User became aware, or reasonably should have become aware, of the circumstance giving rise to the claim.

12.4 Non-excluded Liability. Nothing in the Agreement limits or excludes either party's liability for death or personal injury caused by its negligence, fraud or fraudulent misrepresentation, or wilful misconduct, or any other liability that may not be excluded or limited by law, including the statutory rights of consumers.

13 MISCELLANEOUS

13.1 Publicity. Beyond the attribution to Coragrid that the Agreement requires, neither party may use the other party's name, logo or likeness without the prior written consent of the other party.

13.2 Notices. All notices or any other communication required or permitted under the Agreement will be in writing and will be deemed given when delivered by email, to User at an address User has given Coragrid and to Coragrid at the email address below.

13.3 Force Majeure. No party will be liable for any failure or delay in performing its obligations under the Agreement if the failure or delay is due to circumstances beyond its reasonable control, and the time for any performance will be deemed to be extended for a period equal to the duration of the conditions preventing performance, for a maximum term of six months.

13.4 Assignment. Coragrid may, upon notice to User, assign or transfer the Agreement, in whole or in part, in connection with a merger, acquisition, corporate reorganisation or sale of all or substantially all of its assets. User may not assign or transfer the Agreement without the prior written consent of Coragrid.

13.5 Entire Agreement. The Agreement constitutes the entire agreement between the parties and supersedes all prior and contemporaneous understandings, agreements, representations and warranties, both written and oral, regarding its subject matter.

13.6 No Waiver. The failure of either party to enforce any right or provision of the Agreement will not constitute a waiver of future enforcement of that right or provision. The waiver of any such right or provision will be effective only if in writing and signed by a duly authorised representative of the party granting the waiver.

13.7 Severability. If any provision of the Agreement is held invalid or unenforceable, the remaining provisions remain in full force and effect, and the provision is applied to the maximum extent permitted.

14 APPLICABLE LAW AND DISPUTE RESOLUTION

14.1 Applicable Law. The Agreement will be governed by the laws of Finland, without regard to its conflict of laws principles.

14.2 Disputes. Any dispute, controversy or claim arising out of or in connection with the Agreement will first be addressed by negotiation between the parties. If it is not resolved within thirty (30) days, it will be settled by the District Court of Helsinki, Finland, as the court of first instance. A consumer resident in the European Union may also bring the dispute before the courts of their domicile or refer it to the Finnish Consumer Disputes Board (kuluttajariita.fi).
